

Z-Line

Boltless rivet shelving. Easy assembly. Access all four sides. Most versatile option.

Die Rack

Heavy duty boltless rivet with steel shelving. Very high load capacity.

Bulk Storage

Beam and upright system. Highest capacity. Widest span. Welded uprights. Boltless.

Q-Line

Industrial clip shelving. Smooth steel shelf. Open and closed styles. Most economical option.

L&T

Designed for quick installation and reconfiguration.
Versatile, low-cost storage solution. Highly customizable.

Capstone

Boltless shelving with steel shelves.
Multipurpose shelving. Great for office and warehouse use.

ESP

Durable packaged shelving.
Economical storage option.

Stur-D-StorTM

Complete unit ships in one box.
Vertical or horizontal configuration. Quick assembly.

Automotive

Slide-in shelf design.
Easy adjustability.

Z-Line: Boltless Rivet Shelving

1 Easy Assembly

Tapered keyhole slots and snap-in rivet design makes installation easy.

2 Unobstructed Access

No side or back braces allows access to stored items from all sides.

3 Structural Integrity

Shelf supports incorporate double rivet connection to intermediate "T" posts making a rigid shelving framework.

4 Flexible Design

Shelves adjust in 1 1/2" increments.

5 Locator Keyhole Slot

Locator slot makes positioning shelves easy.

6 Great for Tall Ceilings

Upright posts available in heights of up to 16'.

7 Added Reinforcement

Center supports reinforce deep shelves.

8 Variety of Shelf Options

Industrial grade 5/8" thick particleboard, solid steel or 2" x 4" grid-pattern wire decking.

9 Durable Finish

Painted with a tough, long lasting epoxy finish.

Low Profile
Capacity: Up to 800 lbs.
per shelf, evenly distributed

Medium Profile
Capacity: Up to 1,000 lbs.
per shelf, evenly distributed

Heavy Duty
Capacity: Up to 2,250 lbs.
per shelf, evenly distributed

Extra Heavy Duty
Capacity: Up to 2,500 lbs.
per shelf, evenly distributed

Available Colors

Support Options

Light Duty Supports

Specially designed 1 1/8" high shelf supports provide greater openings, allowing for extra vertical space.

Medium Duty Supports

2 1/4" shelf supports are engineered to allow for decking to be seated on shelf supports, providing extra storage space.

Heavy Duty Supports

2 3/4" high steel beam provides a heavy-duty load capacity.

Extra Heavy Duty Supports

3 1/4" high steel channel beam provides maximum strength for widths of up to 96".

Decking Choices

Particleboard

Industrial grade 5/8" particleboard decking provides a sturdy work surface that is both strong and economical.

Wire

Select wire decking for better visibility of items. Meets Factory Mutual fire codes.

Solid Steel

Ideal for applications with excessive humidity or specific fire codes.

Post Options

Select SUR posts for heavy weight applications.

Select EUR for light or medium weight applications.

Select intermediate ZTP posts when connecting shelving units.

Accessories

Foot Plates are used to secure shelving unit(s) to the floor.

End Caps/Feet offer protection from sharp edges. Choose from soft pliable vinyl caps or rigid nylon caps.

Caster Mounts available as swivel with brakes or fixed casters. (Available on select sizes)

Hang Rods allow for storage of clothing or other items.
