

Tool & Die Rack

- 1 Heavy Load Capacities**
Shelves offer load capacities of up to 4,000 lbs. per shelf and 13,000 lbs. per shelving unit.
- 2 Superior Strength**
 Unique combination of shelf supports with cross beam supports creates a super-reinforced unit.
- 3 Intelligent Design**
Engineered to prevent deformities, even under the heaviest loads.
- 4 Highly Configurable**
Extra shelves and heights available, providing a customizable heavy-duty shelving option.
- 5 Heavy Gauge Steel**
16-gauge steel shelves with a 14-gauge support framework make this unit perfect for heavy materials.
- 6 Braceless Construction**
Easy access to stored materials from all sides.
- 7 Smooth Steel Surface**
Makes placing and maneuvering items on the steel shelf easy.
- 8 Wide Range of Shelf Sizes**
Sizes from 36" w x 18" d to 96" w x 36" d.
- 9 Durable Finish**
Painted with a tough, long lasting epoxy finish.
